

Pumpkins at Baxter Barn

Field Trips \$5 per person

Kids get a FREE pumpkin

in October with a parent

Baxter Barn, 136-year old historic farm offers a fun, educational and hands-on learning experience for all ages and groups. The farm demonstrates sustainability and conservation; where domesticated plants and animals are as important as native plants and wildlife. Bring a lunch and spend time with farmer Cory Huskinson and learn how our sustainable farm practices are protecting local watersheds. Bring home Certified Salmon-Safe eggs, and handmade gifts, visit with the miniature donkeys, horses, quail, pheasants and bunnies or create and paint something to take home. We also offer birthday parties and event rentals in our historic barn. Learn how pumpkins can help the fish!
